Yesterday I was identified as an "Act 76er." Guilty as charged!

Act 76 is about homeowners, farmers, and forestland owners not getting ripped off and disproportionately paying for public pensions. Put another way, why should any of us rent our home from the government?!

Property taxes are inherently unfair. It's time to end them.

American hunters and fishermen spend \$76 billion every year directly on their activities. Ripple effect is \$192 billion in economic activity. Excise taxes on guns, ammunition, fishing rods, tackle, etc. were \$882 million in just 2013, and all that goes directly to wildlife conservation. Hunting and fishing alone are the size of a small nation's annual budget.

The Great American Outdoor Show in Harrisburg starts this weekend. I initiated the boycott of the previous anti-gun promoter, and a handful of conservation leaders (also NRA members) spread it across the Internet, and now we have it run by the NRA. What has been missing from the story is how the NRA grass roots members delivered this show into the lap of NRA. Have fun there, and look for the Sunday Hunting banner. Unfortunately, Hunters United for Sunday Hunting will be missing, as they did not get a booth.

I appreciated state senator Rob Teplitz holding a town hall meeting for --all-- 15th senate district constituents in New Bloomfield, Perry County, last night. He pleasantly surprised me with his answer about Common Core educational standards, which I oppose on the grounds that it corrodes liberty and grows government intervention in the personal lives of Americans. Most of his other answers were circular or general, meant to avoid the issue, primarily on gun rights and the lawsuits against Harrisburg

City's illegal ordinances. I respect him acknowledging that most of the citizens there did not support him. I gotta say, for a guy getting so much heat, he kept his chin up and a good nature.
